

1st TERS HORIBA User Meeting

12th-13th of October 2021

Fraunhofer IKTS / INAM Forchheim

The aim of the meeting is a direct and intensive exchange of experience with other TERS/AFM-Raman users and of course with Horiba Scientific staff. In addition to short user presentations on current research work, up-to-date technical information on devices and applications will be provided. Questions about your measurement requirements can be discussed and illustrated in hands-on sessions.

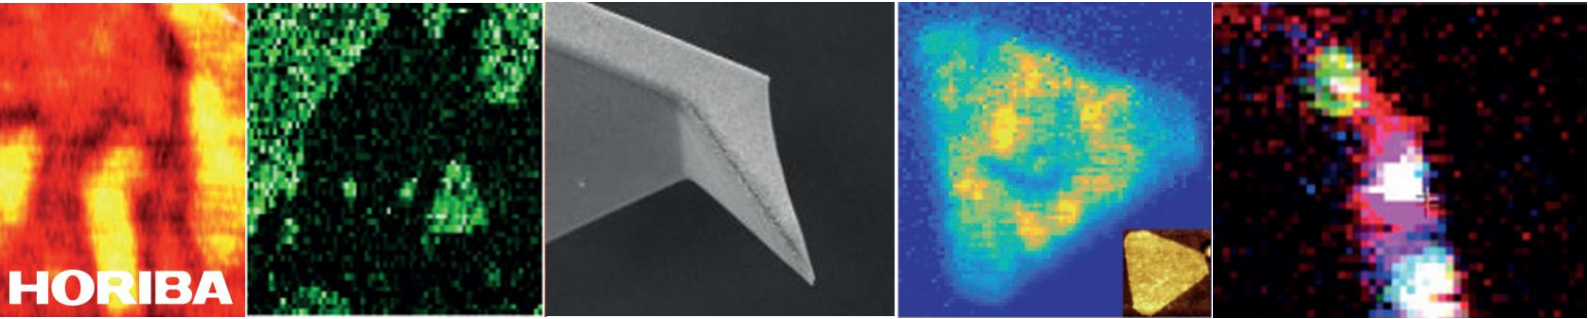

Programm

Day 1 – 12th of October 2021

08⁴⁵ - 09¹⁰	Registration
09¹⁰ – 09¹⁵	Welcome

Hands-on session

We will split into three groups and rotate between three stations: LabRam Nano, Standalone AFM, LabSpec6 Software Suite Advanced.

Participants talks

We are very interested in your general research topics, but also in your latest Raman/TERS/AFM achievements and of course in your future projects.

About the event location

Medical Valley Forchheim GmbH /
Fraunhofer-Institut für Keramische Technologien und Systeme IKTS
Äußere Nürnberger Straße 62
91301 Forchheim

Lodging recommendations

Aparthotel Avantgard Living

Very close (250 m) from event location, please contact if you are interested in special event rates.
Link [Hotel](#), link [Booking](#).

The niu Hop

At the main train station directly at the foot of Forchheim historic city center, but in walking distance to the event location (20 minutes), however, bus is also available.

Link [Hotel](#), link [Booking](#).

Covid-19 Hygiene concept

The training will take place under the currently applicable conditions of the 3G rules.
